Levy Nkeneng – Fullstack Developer

nkenengnunlafrancklevy@gmail.com - 13053 Berlin - levynkeneng.dev

EDUCATION

University of Applied Sciences Berlin (HTW Berlin) | Wilhelminenhofstrasse, Berlin | Bachelor of Computational Science / Ingenieurinformatik (Second Semester).

The "Ingenieurinformatik" course combines computer science concepts such as programming, computer modeling and others with engineering modules such as mechanics, technical drawing and others. The following link leads to a web page displaying the different results on the subjects I have had to do since the beginning of my studies: https://levynkeneng.dev/en/uni-results

KEY SKILLS

Proficient In: Front-End Development • Back-End Development • Fullstack Development • API Creation • Mimicking of Templates • Code Versioning • Deployment of Websites • DevOps • Resposnive Development (Mobile, Desktop) • AI Usage

Programs: VS Code • PHPStorm • Git • Linux (WSL) • Fish Terminal • WebStorm • ChatGPT /Windows Copilot

TECHNOLOGIES EMPLOYED

Front-End Technologies
- HTML
- CSS
- JavaScript
- ReactJS
- Tailwind
- Saas
- Bootstrap
- Webpack (Encore)
- Vite
- Shadcn UI

Back-End Technologies
- PHP
- Symfony

Others
- Git
- DevOps

PROJECTS

In this section will be listed the different projects i did during my journey as a web-developper, from my very first real project to the most recent "completed" one.

- **First Portfolio:** This is my first portfolio website, built with HTML and CSS.
  Live Demo: https://firstportfolio.levynkeneng.dev/
  Github Link: https://github.com/LinkNexus/First-Portfolio

- **JavaScript Calculator:** A simple functional calculator built with JavaScript.
  Github Link: https://github.com/LinkNexus/javascript-calculator

- **Simple React Blog:** A simple single-page blog built with React and Bootstrap CSS.
  Live Demo: https://simplereactblog.levynkeneng.dev/
  Github Link: https://github.com/LinkNexus/SimpleReactBlog

- **Symfony Blog:** A facebook-like web app built with Symfony.
  Live Demo: https://symfonyblog.levynkeneng.dev/
  Github Link: https://github.com/LinkNexus/Symfony-Blog

- **Social Network PHP:** A member connection system coupled with a blog system built with PHP.
  Github Link: https://github.com/LinkNexus/Social-Network

RECOMMENDATION

By following this link. You will be redirected to a web-page of my Portfolio showcasing a recommandation made by one of my Professors, Mr. Prof. Dr. Erik Rodner, at the University of Apllied Sciences Berlin (HTW Berlin): https://levynkeneng.dev/recommendation
